

Anti-NALP6(NACHT-, LRR- and PYD-containing protein 6) Polyclonal Antibody

Cat. #: 60B496

Description:

The NALP6(NACHT-, LRR- and PYD-containing protein 6) may mediate activation of CASP1 via ASC and promote activation of NF-kappa-B. The NALP6 or PYPAF5 has been also reported as angiotensin II and vasopressin receptor. It may stimulate cAMP accumulation. Defects in NALP6 may be a cause of salt-sensitive

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to C-terminal residues of human NALP6(NACHT-, LRR- and PYD-containing protein 6), or AVR(Angiotensin II/vasopressin receptor), or Pypaf5 (PYRIN-containing APAF1-like protein 5-like)

Species: Rat

Storage and Stability: at -20oC

Storage buffer:

This antibody is stored in PBS, 0.01% sodium azide and 50% glycerol.

Preparation:

Purified by antigen-specific affinity chromatography.

Applications :

ELISA

Western Blotting (1µg/ml for 2hrs)
