

Anti-PFKFB3 (6-phosphofructo-2-kinase/fructose-2,6-biphosphatase 3) Polyclonal Antibody

Cat. #: 60B286

Description:

The PFKFB3(6-phosphofructo-2-kinase/fructose-2,6-biphosphatase 3) is involved in synthesis and hydrolysis of fructose-2,6-bisphosphate. In the C-terminal section, PFKFB3 belongs to the phosphoglycerate mutase family.

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to C-terminal residues of human PFKFB3(6-phosphofructo-2-kinase/fructose-2,6-biphosphatase 3)

Clone Number:

Isotype:

Species: Human

Storage and Stability: at -20oC

Storage buffer:

This antibody is stored in PBS, 0.01% sodium azide and 50% glycerol.

Preparation:

Purified by antigen-specific affinity chromatography.

Applications :

ELISA

Western Blotting (1µg/ml for 2hrs)
