Anti-RETN(Resistin) Polyclonal Antibody

Cat. #: 60B965

Description:

RETN (Resistin) is a hormone that seems to suppress insulin ability to stimulate glucose uptake into adipose cells. RETN (Resistin) potentially links obesity to diabetes. RETN (Resistin) is expressed only in fatty tissues and belongs to the resistin/FIZZ family.

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of human RETN(Resistin precursor)

Isotype:

Species: Human

Storage and Stability: at -20oC

Storage buffer:

This antibody is stored in PBS, 0.01% sodium azide and 50% glycerol.

Preparation:

Purified by antigen-specific affinity chromatography.

Applications:

ELISA

Western Blotting (1µg/ml for 2hrs)
