

## Anti-SYS1(Protein SYS1 homolog) Polyclonal Antibody

Cat. #: 60B692

### Description:

The protein SYS1 homolog is involved in protein trafficking. The protein may serve as a receptor for ARFRP1. The protein SYS1 homolog is an integral membrane protein of Golgi.

### Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of human protein SYS1 homolog

Clone Number:

Isotype:

Species: human, mouse

Storage and Stability: at -20oC

Storage buffer:

This antibody is stored in PBS, 0.01% sodium azide and 50% glycerol.

Preparation:

Purified by antigen-specific affinity chromatography.

Applications :

ELISA

Western Blotting (1µg/ml for 2hrs)
