

Anti-TIRP
P(Toll/interleukin-1 receptor (TIR) domain-containing adapter protein)
Polyclonal Antibody

Cat. #: 60B191

.....

Description:

TIRP, a novel Toll/interleukin-1 receptor (TIR) domain-containing adapter protein is involved in TIR signaling. Overexpression of TIRP (Toll/interleukin-1 receptor (TIR) domain-containing adapter protein) activates NF-kappaB and potentiates IL-1 receptor-mediated NF-kappaB activation

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of human TIRP(Toll/interleukin-1 receptor domain-containing adapter protein)

Clone Number:

Isotype:

Species: Human

Storage and Stability: at -20oC

Storage buffer:

This antibody is stored in PBS, 0.01% sodium azide and 50% glycerol.

Preparation:

Purified by antigen-specific affinity chromatography.

Applications :

ELISA

Western Blotting (1µg/ml for 2hrs)
