

**Category:** Monoclonal Antibodies

**Cat. #: 1107NF-009D**

**Product Name:** Monoclonal Mouse Anti-Human Prostatic Acid Phosphatase (PSAP) – Pre-diluted

**Description:** Monoclonal Mouse Anti-Human Prostatic Acid Phosphatase (PSAP)

**Presentation:**

Mouse monoclonal antibody prediluted in Primary Antibody Diluting Buffer pH 7.6.

**Immunogen:**

Antigen isolated from human seminal plasma

**Application:**

To identify carcinomas of prostatic origin.

**Recommended Positive Control:**

Prostate Adenocarcinoma

**Aliquoting Instructions:**

Not applicable

**Staining Procedure:**

The prediluted antibody can be used on frozen cryostat sections as well as formalin-fixed paraffinembedded tissue sections. For paraffin-embedded tissue sections, we recommend an incubation time and temperature of 30 minutes at 37°C for this antibody, when used in conjunction with immunoperoxidase staining kit.

\*Prolonged fixation in buffered formalin can destroy the epitope.

**Specificity:**

This antibody reacts with human PAP.

**Storage:**

Refrigerate at 4°C. Do not freeze.

**Size:** 5 ml

**Clone:** 4LJ

**Isotype:** IgG2a

**Host:** Mouse

**Form:** Prediluted

**Units On Hand:** YES

**For Research Use Only**
