

Category:
Polyclonal Antibodies

Cat. #
1107NF-102M

Product Name:
Lambda Light Chain – Pre-diluted Polyclonal

Description:
Polyclonal Antibody Rabbit Anti-Human Lambda Chain

Immunogen:
Human lambda light chain.

Application:
This antibody is prediluted for Immunohistochemistry use.

Species Reactivity:
Human. Others not tested.

Recommended Positive Control:
B5- fixed Tonsils or Spleen

Presentation:
Partially purified rabbit gammaglobulins prediluted in Primary Antibody Diluting Buffer pH 7.6 and quality controlled using formalin-fixed paraffin-embedded human lymphoid tissue sections.

Aliquoting Instructions:
Not applicable

Staining Procedure:
The prediluted antibody can be used on frozen cryostat sections as well as formalin-fixed paraffin-embedded tissue sections. For paraffinembedded tissue sections, we recommend an incubation time and temperature of 30 minutes at 37°C for this antibody, when used in conjunction with an immunoperoxidase staining kit.
*Prolonged fixation in buffered formalin can destroy the epitope.

Specificity:
This antibody reacts with bound and free human Lambda light chain.

Storage:
Refrigerate at 4°C. Do not freeze.

Size: 5 ml
Host: Rabbit
Form: Prediluted
Concentration: .008-.010 mg/ml
Units On Hand: YES

For Research Use Only
