

Anti-PDK2L2(Polycystic kidney disease 2-like 2 protein) Polyclonal Antibody

Cat. #: 60B508

Description:

PDK2L2(Polycystic kidney disease 2-like 2 protein) may function as a subunit of a cation channel and play a role in fertilization. It is expressed only in testis and heart. PDK2L2 belongs to the polycystin family.

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to C-terminal residues of mouse PDK2L2(Polycystic kidney disease 2-like 2 protein)

Species: mouse, human

Storage and Stability: at -20oC

Storage buffer:

This antibody is stored in PBS, 0.01% sodium azide and 50% glycerol.

Preparation:

Purified by antigen-specific affinity chromatography.

Applications :

ELISA

Western Blotting (1µg/ml for 2hrs)
