

Anti-Mkln1(Muskelin) Polyclonal Antibody

Cat. #: 60B595

Description:

Mkln1(Muskelin) acts as a mediator of cell spreading and cytoskeletal responses to the extracellular matrix component thrombospondin 1. Mkln1 (Muskelin) interacts with the C-terminal tail of the prostaglandin EP3 receptor alpha isoform, and with RANBP9. Muskelin is a part of a complex consisting of RANBP9, MKLN1 and C20ORF11

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of mouse Mkln1(Muskelin)

Species: mouse, human
Storage and Stability: at -20°C

Storage buffer:

This antibody is stored in PBS, 0.01% sodium azide and 50% glycerol.

Preparation:

Purified by antigen-specific affinity chromatography.

Applications :

ELISA
Western Blotting (1 µg/ml for 2hrs)
