

Anti-PDK4(Pyruvate dehydrogenase kinase isoform 4) Polyclonal Antibody

Cat. #: 60B768

Description:

PDK4(Pyruvate dehydrogenase kinase isoform 4) inhibits the mitochondrial pyruvate dehydrogenase complex by phosphorylation of the E1 alpha sub-unit, thus contributing to the regulation of glucose metabolism. PDK4 belongs to the PDK/BCKDK protein kinase family and contains 1 histidine kinase domain.

Species: mouse, rat, human

Storage and Stability: at -20oC

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of mouse PDK4(Pyruvate dehydrogenase kinase isoform 4)

Storage buffer:

This antibody is stored in PBS, 0.01% sodium azide and 50% glycerol.

Preparation:

Purified by antigen-specific affinity chromatography.

Applications :

ELISA

Western Blotting (1µg/ml for 2hrs)
