

## Anti-THRSP(Thyroid hormone-inducible hepatic protein) Polyclonal Antibody

Cat. # 60B769

### Description:

THRSP(Thyroid hormone-inducible hepatic protein) may play an important role in lipogenesis. THRSP is mainly expressed in tissues that synthesize triglycerides. THRSP belongs to the SPOT14 family. Spot 14 protein, absent in the lactating mammary gland, is required for maximum efficiency of de novo lipid synthesis in vivo

### Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of mouse THRSP(Thyroid hormone-inducible hepatic protein)

Species: mouse, rat  
Storage and Stability: at -20oC

### Storage buffer:

This antibody is stored in PBS, 0.01% sodium azide and 50% glycerol.

### Preparation:

Purified by antigen-specific affinity chromatography.

### Applications :

ELISA  
Western Blotting (1µg/ml for 2hrs)
