

Anti-ARL5B(ADP-ribosylation factor-like protein 5B) Polyclonal Antibody

Cat. #: 60B905

Description:

ARL5B(ADP-ribosylation factor-like protein 5B) binds and exchanges GTP and GDP. ARL5B contains six exons and five introns, and encodes a 179 amino acid protein that shares homology to the other ARL proteins. ARL5B belongs to the small GTPase superfamily and Arf family. ARFs and ARLs are part of the RAS superfamily of regulatory GTPases.

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of human ARL5B(ADP-ribosylation factor-like protein 5B)

Clone Number:

Isotype:

Species: human, mouse

Storage and Stability: at -20oC

Storage buffer:

This antibody is stored in PBS, 0.01% sodium azide and 50% glycerol.

Preparation:

Purified by antigen-specific affinity chromatography.

Applications :

ELISA

Western Blotting (1µg/ml for 2hrs)
