

Anti-DCVgp1(DCV replicase polyprotein) Polyclonal Antibody

Category: Polyclonal Antibody

Catalog#: AB1I141

Species Reactivity: Drosophila C virus

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to C-terminal residues of Drosophila C virus DCVgp1(DCV replicase polyprotein)

Description: DCVgp1 includes putative protease, helicase and RdRp domains; RNA-dependent RNA polymerase (RdRp) is an essential protein encoded in the genomes of all RNA containing viruses with no DNA stage. RdRp catalyzes synthesis of the RNA strand complementary to a given RNA template.
