

Anti-CrPVgp1 (CrPV nonstructural polyprotein) Polyclonal Antibody

Category: Polyclonal Antibody

Catalog#: AB1I143

Species Reactivity: Cricket paralysis virus

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to C-terminal residues of Cricket paralysis virus CrPVgp1 (CrPV nonstructural polyprotein)

Description: CrPVgp1 (CrPV nonstructural polyprotein) includes RNA_dep_RNAP domain. RNA-dependent RNA polymerase (RdRp) is an essential protein encoded in the genomes of all RNA containing viruses with no DNA stage. RdRp catalyzes synthesis of the RNA strand complementary to a given RNA template.
