

Anti-Clostridium difficile protein CD1021 Polyclonal Antibody

Category: Polyclonal Antibody

Catalog #: AB3B051

Species Reactivity: Bacteria: Clostridium difficile 630

Immunogen/Specificity:

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of Bacteria: Clostridium difficile protein CD1021

Description: The Clostridium difficile protein CD1021 have molecular weight of about 67KD, and contains a Coth protein. The function is unknown
