

## **Anti-GABABR1b (gamma-aminobutyric acid B receptor 1b) Polyclonal Antibody**

**Category:** Polyclonal Antibody

**Catalog #:** AB3D111

**Species Reactivity:** Mouse, Rat

**Immunogen/Specificity:**

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of mouse GABABR1b (gamma-aminobutyric acid B receptor 1b)

**Description:** GABABR1b (gamma-aminobutyric acid B receptor 1b) contains PBP1\_GABAb\_receptor: Ligand-binding domain of GABAb receptors, which are metabotropic transmembrane receptors for gamma-aminobutyric acid (GABA). GABA is the major inhibitory neurotransmitter in the mammalian CNS. GABABR1b (gamma-aminobutyric acid B receptor 1b) also contains a receptor family ligand binding region.
