

## **Anti-LRP6 (Low density lipoprotein receptor-related protein 6) Polyclonal Antibody**

**Category:** Polyclonal Antibody

**Catalog #:** AB3E121

**Species Reactivity:** Worm: Strongylocentrotus purpuratus

**Immunogen/Specificity:**

Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to C-terminal residues of Worm: Strongylocentrotus purpuratus LRP6 (Low density lipoprotein receptor-related protein 6)

**Description:** LRP6 (Low density lipoprotein receptor-related protein 6) contains multiple Ldl\_recept\_b domains (Low-density lipoprotein receptor repeat class B) and a couple of LDLa domains (Low Density Lipoprotein Receptor Class A domain). LDLa domains is a cysteine-rich repeat that plays a central role in mammalian cholesterol metabolism; the receptor protein binds LDL and transports it into cells by endocytosis.
