

PKR (Phospho-Thr446)

Cat. #: ANTY011280

Species: Human and Mouse

Quantity: 100ug

Concentration: 100ug/100ul

Storage and Stability:

Store at -20°C/1 year

Immunogen:

The antiserum was produced against synthesized phosphopeptide derived from human PKR around the phosphorylation site of threonine 446 (K-R-TP-R-S).

Specificity: PKR (phospho-Thr446) antibody detects endogenous levels of PKR only when phosphorylated at threonine 446.

Tested application: IHC

Application Notes: Rabbit IgG in phosphate buffered saline (without Mg²⁺ and Ca²⁺), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

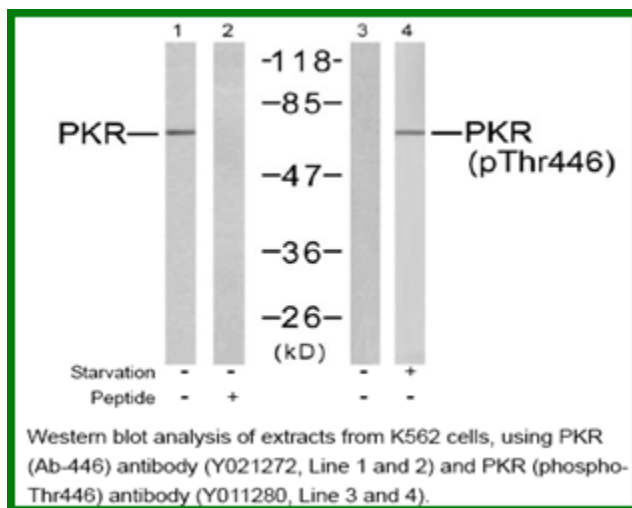

Raised In: Rabbit

Purity:

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific phosphopeptide. The antibody against non-phosphopeptide was removed by chromatography using non-phosphopeptide corresponding to the phosphorylation site.

Storage buffer: IHC: 1:50~1:100

Form: Liquid
