

Rabbit anti-p42 MAPK (ERK2) Polyclonal Antibody

Cat. #: P0205

Description: Affinity purified rabbit polyclonal anti-p42 MAPK antibodies is developed with c-terminal peptide of human MAPK (ERK2).

Immunogen/Specificity:
human p42 ERK2 c-terminal peptide-KLH conjugates.

Recognize p42 ERK1 of human rat, bovine, mouse, rabbit, do not cross-react with p44 ERK1.

Purification:
Affinity purified with p42 ERK2 c-terminal peptide-on Agarose.

Applications :
ELISA (0.5 ug/mL), WB (1 ug/mL), IP (5 ug/sample)

Formulation
250 µg/mL in TBS, 0.1% NaN₃.

Clone Number:

Isotype:

Species: Human, rat, bovine, mouse, rabbit

Storage and Stability: at -20°C, stable for up to three years.
