

Avidin peroxidase conjugates (Av-HRP)

Cat. #: P9804

.....

Description:

Avidin is a biotin binding protein with extremely high affinity. Avidin-HRP conjugates are useful for detection, identification, quantitation, and localization of biotinylated substance.

Immunogen/Specificity:

react with biotinylated substance

Purification:

Affinity purified with p42 ERK1 c-terminal peptide-on Agarose.

Method of conjugation:

reductive amination

Applications :

ELISA, western blot, histochemistry

Formulation

2 mg/mL in PBS buffer with 0.1% BSA

Clone Number:

Isotype:

Storage and Stability: at -20oC, stable for up to 3 three years
