

Rabbit anti-p44 MAPK (ERK1) Polyclonal Antibody

Cat. #: P9810

Description:

Affinity purified rabbit polyclonal anti-p44 MAPK antibodies is developed with c-terminal peptide of p44 human MAPK (ERK1).

Immunogen/Specificity:

human p44 ERK1 c-terminal peptide-KLH conjugates.

Recognize p44 ERK1 of human rat, bovine, mouse, rabbit, do not cross-react with p42 ERK2.

Applications :

ELISA (0.5 ug/mL), WB (1 ug/mL), IP (5 ug/sample).

Purification:

Affinity purified with p44 ERK1 c-terminal peptide-on Agarose.

Formulation

250 µg/mL in TBS, 0.1% NaN₃.

Clone Number:

Isotype:

Species: Human, Rat, Bovine, Mouse Rabbit

Storage and Stability: at -20°C, stable for up to three years.
