

Rabbit anti-p70 S6K, Peroxidase conjugates.

Cat. #: P9917

.....

Description:

Affinity purified rabbit polyclonal anti-p70 S6K antibodies were conjugated to peroxidase through reductive amination. The conjugates are useful for one-step western-blot of crude sample and immunoprecipitated sample without additional use of secondary antibodies.

Immunogen/Specificity:

human p70 S6K c-terminal peptide (ISKRPEHL-RMNL)-KLH conjugates.

Recognize p70 S6K of human, mouse, rat. Not cross react with p90 S6K.

Purification:

Affinity purified with peptide (ISKRPEHLRMNL) on Agarose.

Method of conjugation:

Reductive amination with 2/1 molar ratio of HRP/antibody.

Applications :

ELISA (0.25 ug/mL), WB (1 ug/mL)

Formulation

250 µg/mL in PBS.

Clone Number:

Isotype:

Species: Human, mouse, rat

Storage and Stability: at 4 C, stable for up to 6 months.
